- 14 April 2014** Acknowledge Receipt of Abstract
- 30 April 2014** Notification of Abstract Status
- 30 May 2014** Deadline of Registration

# INVITATION

On behalf of the Organizing Committee, I would like to extend a warm invitation to you to participate in the 22nd Annual Scientific Congress of the Hong Kong College of Cardiology to be held on 6 - 8 June 2014 at the Sheraton Hong Kong Hotel & Towers, Tsimshatsui, Kowloon, Hong Kong.

The 22nd Annual Scientific Congress provides a platform for the local and international cardiology community to share and present the latest knowledge and innovation in cardiovascular medicine and practice. The scientific programme encompasses a wide range of topics facilitating professional exchanges and sharing amongst experts and practitioners in various cardiology spheres. You will learn the latest pharmacotherapy for various cardiac diseases as well as novel percutaneous cardiac technologies like Transcatheter Aortic Valve Implantation (TAVI) for treatment of tight aortic stenosis, MitraClip for treatment of severe mitral regurgitation, Renal Denervation Therapy for treatment for resistant hypertension and LAA Occluder for prevention of stroke in atrial fibrillation patients.

Since the first annual congress in 1992, this annual event has been building momentum each year. This year scientific programme will continue to feature exciting joint programme, paediatric cardiology symposium as well as programme for allied health professionals. Particularly worth mentioning are the Jointed Symposium between the Cross-straits Medicine Exchange Association and Hong Kong College of Cardiology which will continue to be held this year and the Joint European Society of Cardiology/ Hong Kong College of Cardiology/ Macau Cardiology Association Symposium. I am confident that our participants would have a remarkable educational experience through these platforms.

You are cordially invited to share your knowledge, experience and insight at the congress by contributing a paper for presentation at the free paper and poster sessions. To encourage wide participation, Best Paper Awards will be given to the three most outstanding papers. Be a more active participant and submit your paper now.

Famous for its magnificent skyline and renowned as the culinary capital of Asia, Hong Kong is a place that never fails to impress you with its close proximity with stunning cityscapes, soaring mountains, heritage sites and extensive greenery. I sincerely hope our mainland and overseas participants will enjoy the unique and rewarding experience of fulfilling intellectual exchanges, as well as deep relaxation.

Looking forward to seeing you in the Congress.

**Chung-seung Chiang**  
*Chairman*  
*Organizing Committee*

# CONGRESS INFORMATION

## **Date**

Friday, 6 June 2014 - Sunday, 8 June 2014

## **Venue**

Sheraton Hong Kong Hotel & Towers  
20 Nathan Road, Tsimshatsui, Kowloon, Hong Kong

## **Language**

English

## **Website**

<http://www.hkcchk.com>

## **Highlights**

Plenary Lectures and Symposia  
Meet-the-expert Practical Sessions  
Allied Cardiovascular Health Professionals Symposium  
Free Paper Sessions  
Poster Sessions

## **Certificate of Attendance**

A certificate of attendance will be issued to all registered participants.

## **CME Accreditation**

CME accreditation is being applied and will be announced later.

## **Exhibition**

A medical-related exhibition will be held concurrently with the Congress. Advances in cardiovascular medicine will be displayed during the Congress.

## **Letter of Invitation**

Upon request, the Secretariat of the Congress will issue invitations to those wishing to participate in the Congress. The exclusive purpose of such invitations is to assist participants in obtaining funds or visa. Invitations are not commitment by the Organizing Committee to provide financial support.

# CALL FOR ABSTRACTS

## General Information

1. The Organizing Committee welcomes the submission of abstracts of original contributions for presentation at the 22nd Annual Scientific Congress. Interested investigators need not be members of the Hong Kong College of Cardiology.
2. Submitted abstracts should not have been presented at any previous scientific meeting held in Hong Kong prior to the 22nd Annual Scientific Congress. Former presentation at international meetings does not disqualify.
3. Submitted abstracts should not have been published in any local or international journal in full paper form prior to the 22nd Annual Scientific Congress of the Hong Kong College of Cardiology.
4. **Deadline: Abstracts must arrive at the Secretariat no later than 1 April 2014.**  
Abstract arriving after 1 April 2014 will not be accepted. An author may request in writing to withdraw an abstract if an error is found on the abstract submitted. A new abstract may be submitted if received by 1 April 2014. After this deadline, an author may not submit a paper in order to make changes or corrections. The paper may be withdrawn, or, if accepted, the error may be indicated during the presentation.
5. The abstract must be written in **English**.
6. The maximum number of abstracts in which any person can be the first or presenting author is FOUR.
7. The time available for each oral presentation is 8 minutes with an additional 2 minutes for discussion.
8. Enter ONE option from the list of topics on which you wish to submit your abstract for review, and complete the author declaration statement on Page 8.

## Content of the Abstract

1. Your completed abstract must be wholly contained within the space provided on Page 7.  
Within the space type:
  - a. the title. Do not include any abbreviations.
  - b. the names and initials of all authors. Underline the presenting author. Do not include degrees.
  - c. name and location of the institution in which the work was done. For multicentre trials, give names of principal authors and text "on behalf of ...".
  - d. body text of abstract.
2. Organize the body of the abstract as follows:
  - a. title: make the title brief, clearly indicating the nature of the investigation
  - b. a statement of the purpose of the study
  - c. a statement of the methods used
  - d. a summary of the results, presented in sufficient detail to support the conclusions
  - e. a statement of the conclusion reached
3. Note that:
  - a. References and credits must not be included in the abstract.
  - b. Do not include street address, postal code, degrees or grant support.
  - c. Formulas should, in general, be avoided.
  - d. Simple tables and graphs may be included.
  - e. The use of standard abbreviations is desirable within the body of the abstract. Place special or unusual abbreviations in parentheses after the full word the first time it appears in the body text.

## Instructions for Typing

1. Abstracts can be submitted through Online Abstract Submission (<http://mci-hongkong.com/asc/2014>), or typed and printed on the enclosed special abstract form on Page 7. If an abstract is selected for presentation, the form may be used as the master copy for printing in the Proceedings of the Congress. Fax copies will not be accepted.
2. Abstract must be typed in black ink using Times New Roman not smaller than 9 point. Do not type outside the box on the abstract form.
3. Single space all typing. Do not leave a top or left margin. Type across full width of rectangle.
4. Do NOT indent title or authors. Continue with institutions etc. immediately after the last author.
5. Indent body text. Leave a blank line between authors and body text of abstract. Do not leave blank lines between paragraphs but indent each new paragraph three spaces.
6. Type the title in UPPER AND LOWER CASE. Do NOT underline. Bold may be used for emphasis.
7. DO NOT ERASE. Do not underline. Do not cross through. Abstracts with smudges, errors, misspellings, which overlap the edges of the space provided (the rectangle) are likely to be rejected.
8. Non-proprietary (generic) names, written in lower case, are required the first time a drug is mentioned. Proprietary names may not be used.
9. Where used, special symbols (e.g. Greek letters, if available) should be drawn in BLACK ink.
10. A sample abstract is on Page 9 for your reference.

## Instructions for Online Submission / Mailing

1. Abstract submission can be done on-line at Online Submission System; you will be given detailed instructions on how to proceed. All free paper presenters are required to register with the Conference for presenting their works. Each abstract can only be submitted once.
2. Abstract submission can be done through mailing. DO NOT FOLD the abstract form. Mail the abstract together with the completed abstract category and author declaration form, to:  
Congress Secretariat  
22nd Annual Scientific Congress  
Hong Kong College of Cardiology  
c/o MCI Hong Kong, Suites 2807-9, Two Chinachem Exchange Square  
338 King's Road, North Point, Hong Kong
3. **Deadline:** Abstracts must arrive no later than **1 April 2014**. Abstracts arriving after 1 April 2014 will not be accepted. Confirmation of receipt of the abstract by the Congress Secretariat will be emailed to the address given on the abstract form. If such a confirmation has not been received within two weeks after the submission deadline, check with the Secretariat.

## Abstract Review, Selection and Publication

1. All abstracts will be reviewed by the Abstract Review Committee. A paper may be accepted for oral presentation at the Congress, for presentation in a poster session, or it may be rejected.
2. Abstracts accepted for presentation will appear in the Proceedings of the Congress and as a Supplement in the Journal of the Hong Kong College of Cardiology.
3. Once accepted copyright of the abstract will be transferred to the Hong Kong College of Cardiology.

## Best Paper Awards

Abstract accepted for oral presentations will be short listed for the competition of the Best Paper Awards. A prize of HK\$3,000 each will be awarded to the 3 winners.

# ABSTRACT FORM

## 22nd Annual Scientific Congress Hong Kong College of Cardiology

6 - 8 June 2014

Sheraton Hong Kong Hotel & Towers

Tsimshatsui, Kowloon, Hong Kong

### List of Topics

- Arrhythmia and Electrophysiology
- Cardiac Imaging
- Cardiac Pacing and Implantable Cardioverter Defibrillator
- Cardiac Surgery
- Coronary Artery Disease
- Heart Failure
- Hypertension and Hyperlipidemia
- Congenital Heart Disease
- Paediatric Cardiology
- Percutaneous Coronary Intervention
- Valvular Heart Disease
- Others \_\_\_\_\_ (please specify)

Please tick one option from the above list of topics on which you wish to submit your abstract, entitled

---

(please type)

### Author Declaration

I affirm that this abstract conforms to all abstract policies of the 22nd Annual Scientific Congress of the Hong Kong College of Cardiology as stated. I certify that all the authors named are familiar with the presented data, agree with the results as stated, and have specifically consented to be included as authors. I also affirm that any animal studies conform with the AHA position on responsible use of animals in research, and that any human experimentation conforms with the principles of the Declaration of Helsinki of the World Medical Association.

<b>Cardiac Pacing in Hong Kong: Second Report of the Hong Kong Pacing Registry</b> C O Pun on behalf of The Hong Kong Pacing Registry Investigators. The Hong Kong Pacing Registry, Hong Kong College of Cardiology, Hong Kong	
<b>Purpose:</b> The Hong Kong Pacing Registry was established in 1990 to gather some basic information of pacing practice in Hong Kong. The first report on the information collected for year 1991 was published in the Journal of Hong Kong College of Cardiology. This presentation summarized the data collected for the year 1992 and 1993.	
<b>Methods:</b> A Registry form consisted of questionnaire grouped into 3 categories including patient demographics, pacemaker system characteristics, and implant procedure, was filled in by the pacemaker representative at the time of implant. Clinical data were supplied by the implanting physician. Analysis was made on the forms received in 1992 and 1993.	
<b>Results:</b> The numbers of forms returned for year 1992 and 1993 were 377 and 510 respectively, with implant rate of 65/million and 88/million. The male to female ratio were 1:1.3 and 1:1.4 for 1992 and 1993 respectively. Dizziness (45.9%, 42%) and syncope (35.3%, 26.9%) were the main presenting symptoms. Hypertension (20.7%, 17.1%) and ischaemic heart disease (20.4%, 18.4%) were the commonest associated medical illness. Sinoatrial disease (49.3%, 50.2%) and high grade atrioventricular block (46.7%, 43.5%) were main indications for pacing. 83% of implantations in 1992 and 88.4% in 1993 were new implants. The commonest pacing mode used was VVI (43.8%, 42%). Dual chamber pacing was employed in 28.1% and 27.5% of implants. The third commonest pacing mode was VVIR (22.5%, 25.1%). Majority were programmable units (96.6%, 96.3%), and bipolar mode (60.7%, 72.7%). Most systems were implanted on the left side (right:left were 1:3.1 and 1:2.3 for the two years respectively). The subclavian route was used in the majority (ratio of cephalic to subclavian were 1:4.1 and 1:7 for atrial leads, and 1:1.7 and 1:1.9 for ventricular leads).	
<b>Conclusions:</b> Patients demographics, pacemaker system characteristics, and implant procedures were rather similar for years 1992 and 1993, and also with that of 1991. On going collection of data is necessary to assess the change of local pacing practice and to enable comparison with other countries.
